

### **The Institute for Memory Impairments and Neurological Disorders (UCI Mind)**

The Institute for Memory Impairments and Neurological Disorders (UCI Mind) is located at the Irvine campus. If one has noticed some cognitive impairment with a loved one but hasn't received a diagnosis, the UCI Mind program would help. The purpose of the Institute is to diagnose disease, identify means for effectively treating the condition, and provide help for families and caregivers. The Institute's purpose is research.

Contact information: 949.824.2382 /[www.MIND.UCI.edu](http://www.MIND.UCI.edu).

This program also does not accept Medicare Advantage programs for the evaluation. However, the testing typically is covered by these programs.

### **The Senior Health Center HAPS at UCI Medical Center in Orange**

The Senior Health Center at UCI Medical Center in Orange is designed expressly for older adult's special health care needs. Services offered include primary care, geriatric consultation, health assessment program for seniors (HAPS), memory assessment, pharmacy consultation, and psychotherapy.

The team consists of geriatricians, psychologists, social worker, pharmacist, and nurses. To schedule an appointment call: 714.456.7007 or for general questions and more specific information call 714.456.5523.

Insurances accepted: Medicare Part A&B, Medicare/MediCal (Medi-Medi), PPO, Tricare and cash. Medicare Advantage programs such as SCAN, Secure Horizons, or other HMOs are not accepted. In those cases, paying privately for a consultation or HAPS evaluation would be helpful with ongoing care followed by a physician who does accept senior HMO programs.
